TECHNICAL WORKING CATALOG 2026

Tradition Innovation

MOLGRA

MOULDING MANUFACTURER

TECHNICAL WORKING CATALOG

Tradition Innovation

El catálogo que tenemos el placer de presentarle es el fruto de nuestra trayectoria en la enmarcación, con ya más de 70 años en el sector. Gracias a ella hemos creado una práctica y técnica herramienta que deseamos sea de utilidad en su taller. Doce familias lo componen agrupando en ellas la tradición, la innovación y el tecnicismo, no está todo nuestro muestrario, pero sí una amplia representación.

En su ordenación hemos intentado pensar siempre lo que el enmarcador necesita, por ello deseamos que TECHNICAL WORKING CATALOG sea su más fiel aliado en todas sus creaciones.

The catalog that we are pleased to present you is the result of our long-term history in the framing business, with more than 70 years of experience. Thanks to it, we have created a practical and technical tool, that we expect to be useful in your workshop. All in all, twelve families of products compose this workbook, matching tradition, innovation and technical advances with each other. Introducing our mouldings here, we focused on the products really needed by the framers.

Therefore, we did not include our complete referenced stock, but rather the finest and most representative version of it, with the idea of making our TECHNICAL WORK CATALOG the most faithful ally for all your creations.

NUEVA FÁBRICA Y CENTRO LOGÍSTICO MOLGRA

Molgra inició en 2017 la construcción de una nueva fábrica de molduras y su centro logístico, para fortalecer su desarrollo en un mercado cada vez más competitivo. Con sus 16.000 m² construidos, es una de las mayores inversiones en el sector de los últimos años.

MOLGRA´S NEW MANUFACTURE AND LOGISTICS CENTER

Molgra started in 2017 the construction of a new mouldings factory, to consolidate its development in an increasingly competitive market. With its 16,000 sqm, it is one of the largest investments in the business over the last years.

1. Línea de fabricación
1. Manufacturing line

2 - 3. Carpintería
2 - 3. Wood profiling line

4. Almacén
4. Warehouse

Índice / *Index*

Bastidores especialmente diseñados para colgar láminas de Dibond o de otros materiales, separadas de la pared.

Su forma de cuña consigue el ajuste total de las obras a la superficie del muro de forma fácil, aplicando varios posibles montajes.

Strecher bars specifically designed to hang Dibond panels without touching the wall.

Its wedge profile fits perfectly, and adjusts easily the artwork onto the wall. You may use different mounting techniques.

Listones de pino finger para colgar / *Hanging bars in finger-jointed pinewood*

1787/000 40x20mm

1786/000 30x14mm

Listón de pino finger, especialmente diseñado para colgar en la pared cualquier cuadro o bastidor con facilidad.
La forma del perfil, con su canal interior inclinado permite atornillar, clavar o grapar el listón a la moldura por la parte trasera del cuadro, dándole así una mayor resistencia a las molduras estrechas por el lado que se cuelga. Adjuntamos un fotomontaje en corte transversal, mostrando un ejemplo. Unido al cuadro, el listón con su bisel inferior pronunciado permite un encaje perfecto sobre las alcayatas o tornillos colocados en la pared, manteniendo el cuadro totalmente vertical, de esta manera podemos desplazar el cuadro a derechas o izquierdas según conveniencia, sin hacer agujeros nuevos. Se sirve en tiras individuales de aproximadamente 3 metros.

Finger –jointed bar of pinewood, designed to hang on the wall any frame with ease. The shape of the profile, with its inclined inner channel allows screwing, nailing or stapling this hanging bar to the molding at the rear of the frame, thus giving greater resistance to narrow moldings on the side that hangs. We enclose a sketch in cross section, showing an example of assembly. Attached to the frame, the profile with its pronounced lower bezel allows a perfect fit on the hooks, or screws placed on the wall, keeping the whole frame totally vertical and attached to the wall. Such mounting system makes it possible to move the frame to the right or left without making new holes, if needed. It is served in individual strips of approximately 3 meters.
