MOLGRA

Ulises Collection

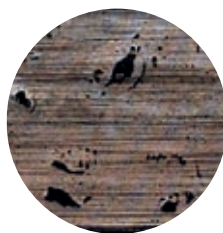

The “ULISES” collection brings together profiles with metallic colors, to keep up with current trends. A special treatment allows us to create unique effects: a light brushing with fine black stripes on the patina adds a touch of personality to the moulding, while the application of a stamping roller adds some blurred strokes. The set creates the feeling of an original moulding, as if it were made of metal.

“ULISES” exists in four colors: gold, silver, lead, and bronze. Then, we’ve included traditional black and white, to cover a wide range of possibilities.

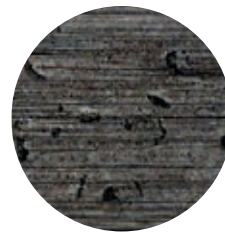

With “ULISES”, we introduce profiles that are very easy to work with, with fashionable colors, sold at a really affordable price, for exceptional results.
