MOLGRA

Klimt Collection

The KLIMT collection seeks to combine a very elegant molding with a material that is easy to work with on a daily basis, in a single product. It is made up of two flat profiles in finger-jointed pinewood from the best quality, 48x26mm and 30x19mm respectively, which purposely carry an exaggerated channel on the upper rebate, as if the molding had an integrated, gold or silver Marie-Louise.

The result provides a high quality molding, which stands out for its tones similar to the authentic gold leaf that were used in the Modern or Art-deco era, and are so emblematic of the work of Klimt himself.
