MOLGRA COLLECTION

MOLGRA

Guggenheim Collection

Our GUGGENHEIM collection is a clear reference to the audacious materials of the art world. It is inspired by the metal air tiles of the famous museum, which we all remember. We introduce a series of profiles in various shapes, with valuable decorations, marked by this very fine thread, typical of sheets of brushed precious metal, as if they were applied on the molding: pink gold, silver and platinum (darker).

The profiles are made in obeche (treated ayous) with rounded edges, and the moldings are protected by a film which it is advisable to remove once the frame is mounted.
