Bali Collection

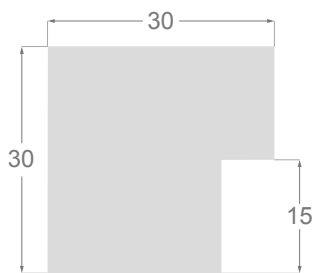

The BALI collection marks a small innovation in our moldings collections: it introduces a textured decor imitating palm wood, with an innovative transverse pattern. It is distinguished by the regularity of its veins, with a subtle blend of colors: blue-grey, beige and brown.

Made of the finest quality finger-jointed laminated pine, it is made up of a series of balanced profiles: 2 architect profiles, 3 squares, a generous 30x50 mm "taco" and 2 pyramids, all with a deep rebate to give a touch of elegance and originality to framed artworks.

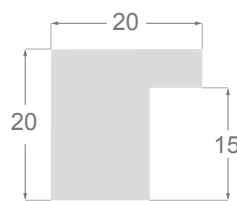

The end customer will appreciate the relief of the decoration and the way the profile catches the light. It simply combines with...everything. Bali, to escape from the daily life, and see something different.
