MOLGRA COLLECTION

MOLGRA

Artisan Collection

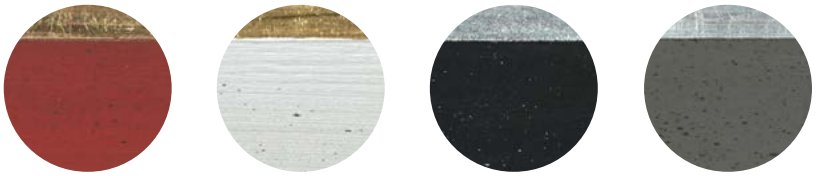

The Artisan moulding collection is made up of different lines. These mouldings are handcrafted using a variety of techniques that give shape to MOLGRA's new artisan family.

Made from high-quality woods, they represent authenticity, diversity, tradition and creativity. Each piece is handcrafted using traditional techniques such as waxing, controlled burning and the manual application of colour.

Select a line and discover its profiles, finishes and colours.

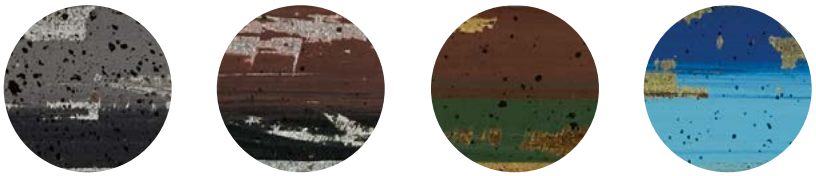

Pincel Line

Combines solid colours with gold or silver leaf details and paint splashes, creating a han-dcrafted finish over a pinewood base.

Pátina Line

Combines gold and silver backgrounds with different colours, worked using a scra-ping technique to achieve an aged finish, all on a pinewood base.

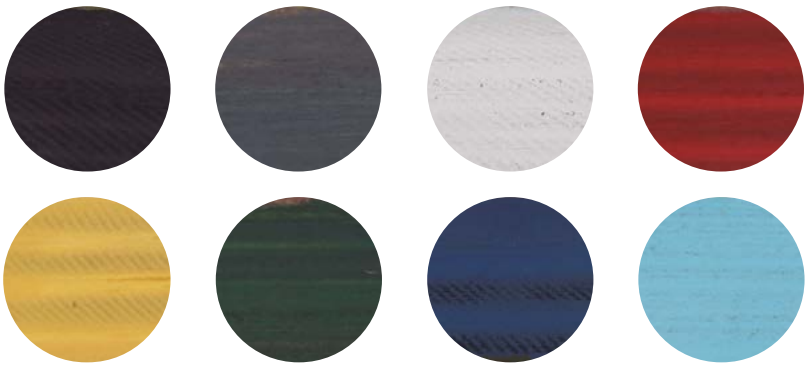

Rustic Line

Made from a pinewood base, it combines natural textures and soft colours with a distressed water-based technique, creating an authentic handcrafted finish.

Prisma Line

Features solid colours with a handcrafted finish and a burning technique that enhances the texture of the wood. Made from pinewood.

Rainbow Line

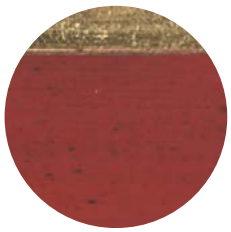

Made from pinewood, it combines a wide range of vibrant colours, creating mouldings full of energy and personality.

Pincel Line

The Pincel collection combines the sobriety of plain colours with decorative details that add contrast, movement and personality.

Crafted from pinewood, it features gold or silver leaf details and paint splashes, applied by hand. The result is a contemporary, expressive collection with subtle variations that make each piece unique.

Pátina Line

The Pátina collection is born from the beauty of aged surfaces and the nuances that emerge through handcrafted work on wood.

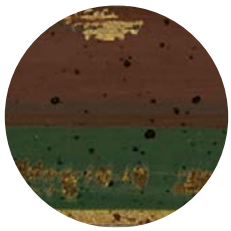

Crafted from pinewood, it combines gold and silver backgrounds with different colours, worked using a scraping technique. This process adds depth, texture and an aged appearance with a distinctly artisanal character.

Rustic Line

The Rústica collection, crafted from pinewood, stands out for its natural textures and soft tones, creating a warm, simple and authentic aesthetic.

Its distressed water-based technique creates a slightly aged finish, revealing different nuances on the surface and giving each moulding a natural, handcrafted character.

Prisma Line

The Prisma collection embraces the strength of colour and the simplicity of form, resulting in a contemporary collection full of personality.

Crafted from pinewood, it combines solid colours with an artisanal burning technique that enhances the texture of the wood and adds depth to the finish. The subtle variations created by this process allow each piece to retain its handcrafted identity.

Rainbow Line

The Rainbow collection celebrates colour through a cheerful, expressive and energetic proposal, designed to create frames with a strong personality.

Crafted from pinewood, it combines a wide range of vibrant colours applied by hand, creating surfaces full of nuances and variations. Each moulding thus becomes a unique piece, where manual craftsmanship and colour are the true protagonists.
