# Collection **Artisan**

The Artisan Moulding Collection is made up of different lines. These mouldings are handcrafted using various techniques to shape Molgra's new artisan family.

They are crafted from different high-quality wood types and represent authenticity, diversity, tradition, and creativity. Each piece is handmade with eco-friendly wood and treated using traditional techniques such as waxing, controlled burning, and manual color application.

This collection is a tribute to the origins of framing: each moulding tells a unique story. Whether through vibrant tones, natural character, or chromatic intensity, each style brings a distinct personality to frame artworks with soul.
