Alfil Collection

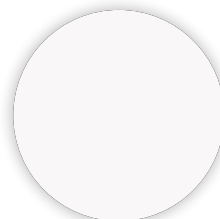

The ALFIL collection is a series of black and white moldings made of ayous wood with many possibilities, since there are a large number of profiles of different sizes and shapes.

Whether they are wide flat profiles, architect profiles, American boxes, “eles”, with ALFIL the framer covers a wide range of needs and has, thanks to its straight edge finish, a modern and up-to-date profile.

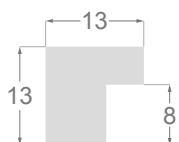

A safe bet for those environments where the subtlety of the framing stands out for its elegant simplicity.
