Metal Collection

The METAL Collection is a mixture of industrial styles, which has inspired us to create the die-cut sheet metal finish.

A game of metallic tones, flat colors, reliefs and glosses. All of them synchronized to achieve an authentic effect. The two heights of the surface together with the two colours give a sensation to the touch of a real grille. With multiple combinations of color, brightness or design.

We present these finishes in two perfect profiles to show both texture and color: a 30x17mm profile and another 60x17mm profile.
