

Grey

MOLGRA COLLECTION

Grey Collection

The Grey collection is dedicated to the new contemporary nuances that wood is able to dress today, to integrate into more and more demanding interiors. It consists of four laminated-butted pine profiles, well balanced and easy to work: two regular profiles in 20x20mm and 30x30mm, and two architect profiles in 15x30mm and 20x38mm.

Each profile has been lined with prefabricated sheets of different species that have been dyed, which has been carefully tinted to not only apply a new tone to the wood, but also to highlight the pattern of the veins. We got three shades, at the limit of gray and blue: smoked black with clear veins, cava with fine brown veins and metallic blue with dark veins.

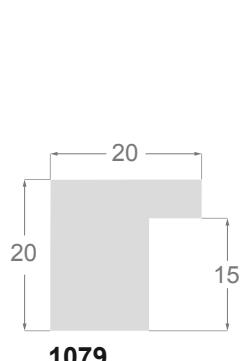

Gray via its colors highlights classic interiors decorated with traditional furniture. It also combines with design interiors, using more innovative materials like steel, aluminum and Stone.
