Ibiza Collection

The IBIZA collection blows a wind of joy and warmth in these difficult times. It consists of a series of ten different profiles, from the 10x20mm architect model to a 98x48mm wide moulding, all in high quality finger-jointed pine. A very white decor with open-pore wood imitation. Can be combined with each other or with all types of profiles.

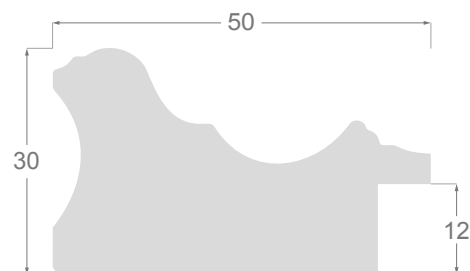

Its interest lies in its open-pore white decoration, very resistant, and designed with great precision: it brings light, and a certain minimalist or on the contrary more rustic touch, to any artwork, painting or poster. Its vocation is to be able to frame any support, and easily enter many homes, making us forget for a while the gray of these times.
