M O L G R A C O L L E C T I O N

Scala Collection

SCALA is a classic collection of flat moldings, they are characterized by two edges, in gradient: one on the outer edge, and the second just above the rebate, which improves the perspective of the framed support.

The open pore decors have a special patina, providing a very realistic relief feeling. We have also included gold or silver threads, slightly aged on the top of the rebate, as a contrasting effect.

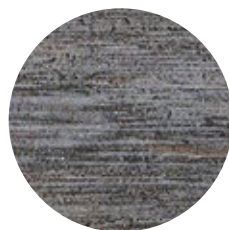

The set gives a very versatile collection, for the everyday work. SCALA is available in 2 sizes: 46x21mm and 26x21mm. The colors, in white, black, gray or walnut, remain universal.
