Duna Collection

The DUNA collection is inspired through contemporary textures used in modern interiors, to move away from the flat and smooth surfaces. It consists of a series of four finger-jointed pine profiles, two «squares» of 30x30mm and 20x20mm, an architect's one of 15x30mm, and finally a wider profile of 60x17mm.

The innovation of DUNA consists in the application of a CPL film, reproducing discreet transversal wavy undulations, which one can appreciate in touching the mouldings. This touch of relief allows moldings to match with different works or places. Whether they are minimalist kitchens or lounges, modern hotel or restaurant entrances, or even art galleries, DUNA will not leave you indifferent, without shocking you. We chose white and black as universal tones, with an elegant matte satin finish.

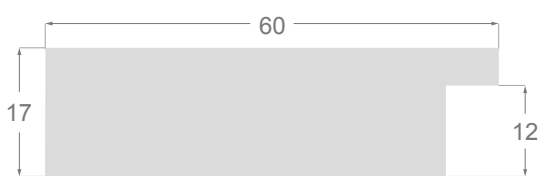

Small peculiarity, the film used has a special patent, making it more ecological and sustainable for the environment. With DUNA, Molgra continues its efforts to offer different moldings, with the idea of satisfying customers working on demanding projects, that are out of the ordinary.
