Piano Collection

The PIANO collection refers to high gloss moldings, with a wide series of profiles in Obeche (treated ayous) of the best quality, decorated with materials with high covering capacity: black and white in PET, and silver in PVC especially treated. It stands out for its quality: the black and white moldings reflect the light in the best way, and the silver intrigues with its mirror effect.

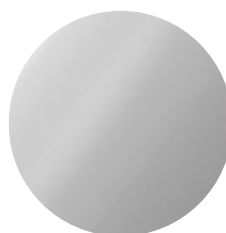

The edges are slightly rounded, to increase the effects with light and improve the quality of the coating. The moldings are served with a protective film, which we recommend to keep until the frame is assembled, before removing it by hand. A collection to be shown in the workshop.
