MOLGRA

# Munich Collection

The MUNICH collection is a universal collection. It has been designed for all interiors, whether traditional, modern or contemporary. Its finishes in satin black, brushed silver and gold give it an elegant and noble air.

MUNICH consists of five profiles of high quality in finger-jointed pine: a square profile of 20 x 20mm, two architect profiles of 15 x 30mm and 20 x 38mm, a flat profile of 38 x 20mm and finally an American Box. Each profile has a thin layer of gesso covering the wood, which makes it possible to apply the smooth and unique patina finishes afterward, including some fine red lines that make it deeper.

The choice of MUNICH becomes obvious because of its excellent value for money when it comes to framing a work that needs a classic and distinguished molding.
