Omega Collection

The OMEGA collection introduces a modern and elegant alternative to the square mouldings with straight edges, so common today. It consists of 2 rounded profiles, respectively of 20x20 and 36x26mm, made of the best quality finger-jointed pine, prepared with a fine black gesso.

OMEGA receives very contemporary decors, in finely brushed metallic colors: bright gold and silver, platinum, champagne, all with the upper edge of the rebate and the back painted in black. They are added to the black and white, also very successful.

OMEGA, an easy-to-remember name for an aesthetic molding with round shapes.
