Altis Collection

The ALTIS collection reveals our new focus when it comes to mouldings at Molgra: it is a set of profiles made with finger-jointed pinewood, each of them being declined in five coatings made of natural contemporary veneers: wenge, American walnut, oak, vaporized beech, and maple.

Whether it comes to a large flat profile, or to an architect's profile, or to American boxes, or including to pyramide-like profiles or spacers, the framers have their main needs covered through ALTIS and its straight edges.

The veneers cover the profiles perfectly, including the backsides. There is also the ability to add the finishing effects you may wish: stains, varnishes, patinas. The ALTIS profiles have been voluntarily let in the most natural finishing state.
