Bastidores especialmente diseñados para colgar láminas de Dibond o de otros materiales, separadas de la pared.

Su forma de cuña consigue el ajuste total de las obras a la superficie del muro de forma fácil, aplicando varios posibles montajes.

Listón de pino finger, especialmente diseñado para colgar en la pared cualquier cuadro o bastidor con facilidad.
La forma del perfil, con su canal interior inclinado permite atornillar, clavar o grapar el listón a la moldura por la parte trasera del cuadro, dándole así una mayor resistencia a las molduras estrechas por el lado que se cuelga.

Adjuntamos un fotomontaje en corte transversal, mostrando un ejemplo. Unido al cuadro, el listón con su bisel inferior pronunciado permite un encaje perfecto sobre las alcayatas o tornillos colocados en la pared, manteniendo el cuadro totalmente vertical, de esta manera podemos desplazar el cuadro a derechas o izquierdas según conveniencia, sin hacer agujeros nuevos. Se sirve en tiras individuales de aproximadamente 3 metros.
