

Noir

MOLGRA COLLECTION

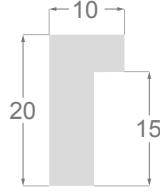

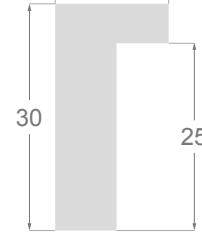

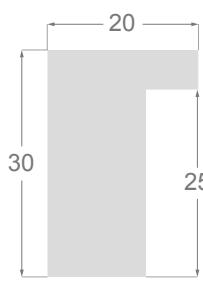

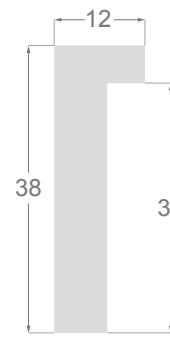

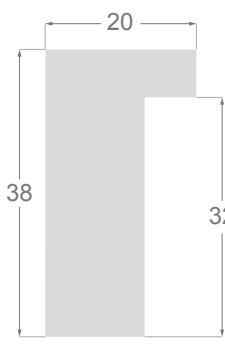

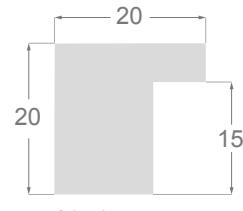

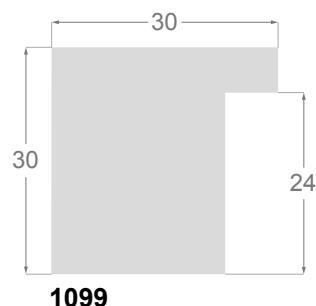

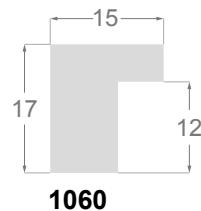

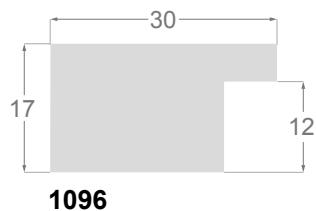

Colección Noir

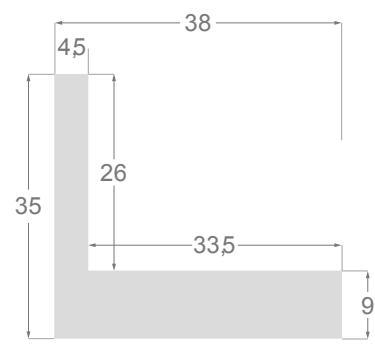

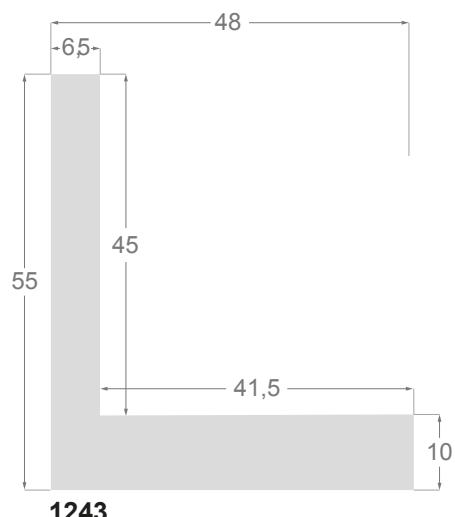

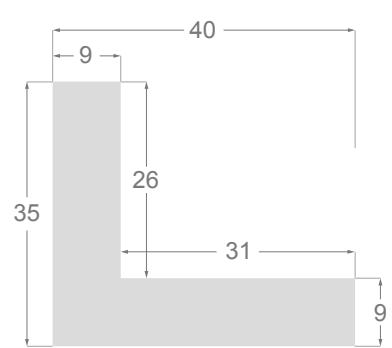

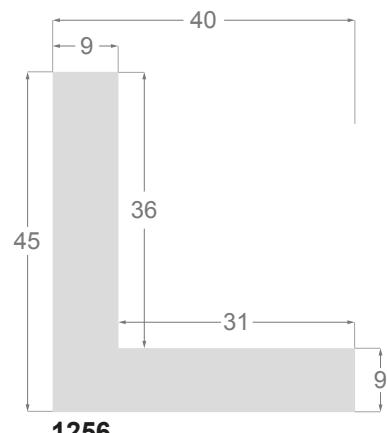

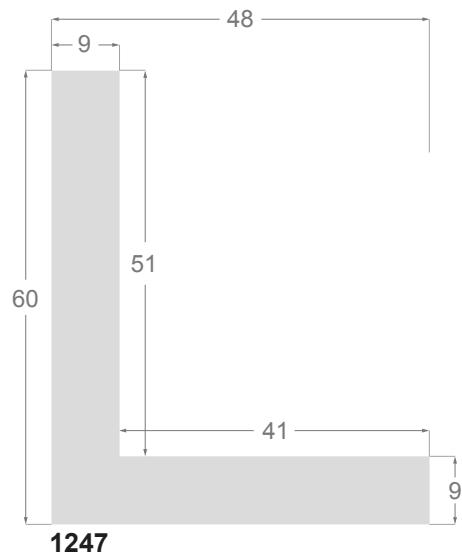

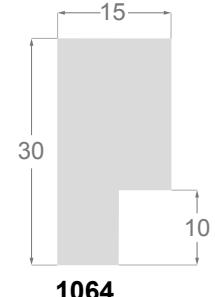

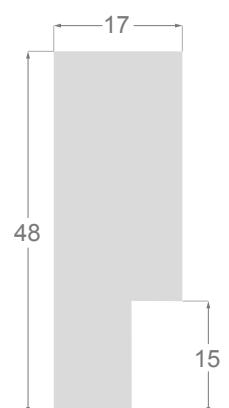

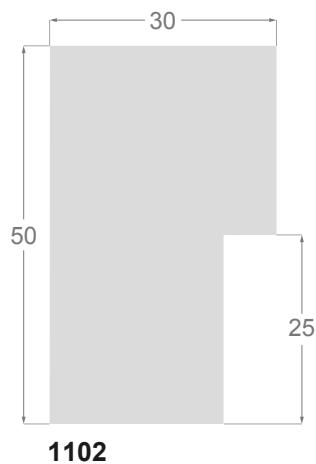

La Colección Noir es una evolución sofisticada de las molduras negras clásicas, logrando un efecto visual similar al relieve del roble pintado en negro. Fabricadas con pino finger proveniente de bosques gestionados de manera responsable, estas molduras están recubiertas con una lámina de polipropileno que cumple con los estándares REACH y contiene un 50 % de polímeros reciclados postindustriales. Además, su formulación está libre de formaldehído y metales pesados, reforzando su compromiso con la sostenibilidad.

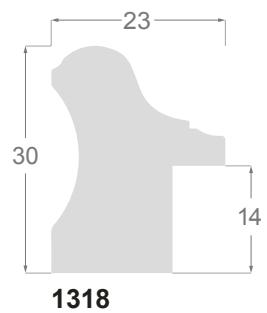

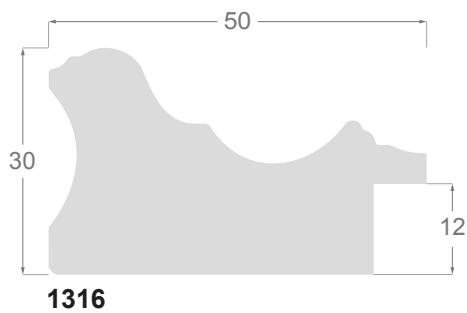

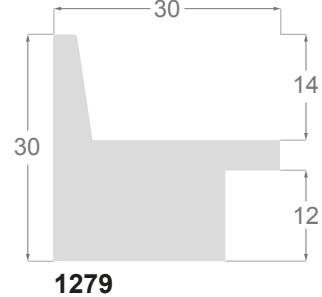

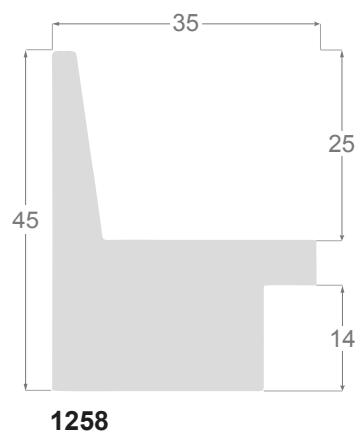

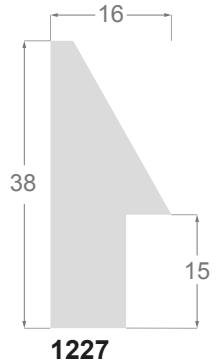

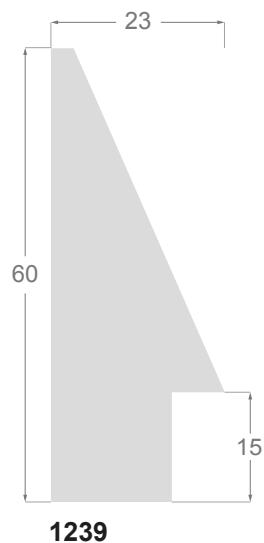

Esta colección ofrece soluciones versátiles para todo tipo de enmarcaciones, incluyendo láminas, acuarelas, lienzos y, especialmente, fotografías en blanco y negro. Su acabado contemporáneo y la seguridad estética del negro la convierten en una apuesta ideal para quienes buscan elegancia y conciencia ambiental en un solo producto.
